Every Word I Say

Hanson

Every Word I Say
(Bonustrack on the single Penny And Me)
You feel like liberation
You give me new sensation
You show me what I need and
You are my life completed
Can't stop, can't break, who's driving?
Sometimes there's no denying
Till today I feel I can't lose
I'm letting go of what I knew
I want you for always
I hear your name in every word I say
I'm a fool and I don't care
I hear your name in every word I say
Before you I was only
What I let control me
You are a revolution
Against my own conclusions
Till today I feel I can't lose
I'm letting go of what I knew
I want you for always
I hear your name in every word I say
I'm a fool and I don't care

I hear your name in every word I say
And now I say goodbye to the way I used to be
There is no room for question
Cause your name it sets me free
Yesterday's troubles harm me
Today's are creeping in
So let go of the world around me
Cause your love is all I need
I want you for always
I hear your name in every word I say
I'm a fool and that's okay
I hear your name in every word I say
I want you for always
I hear your name in every word I say
I'm a fool and I don't care

I hear your name in every word I say
Every word I say
Every word I say
In every word I say
I hear your name in every word I say
I hear your name in every word I say
I hear your name in every word I say
I hear your name well all I hear is your name
