

# It Ain't Cool

[Adam Gregory](#)

I used to wonder why the songs on the radio  
Always seemed to be about love  
If you look every book, every TV show  
Is just full of that stuff  
They write about it, talk about it  
Inside and out  
They even cry about it for crying out loud  
Ah, but now that I've got it, I get it now  
It ain't cool to sing love songs  
But I'm singing one to you  
It ain't cool to sing love songs  
But I'm giving one to you  
And if you laugh at me, that's how it's gonna be  
'Cause I'm doin' it, yes it's true  
Ah, 'cause now that I've got it, love is cool  
The way folks go on and on about it  
They're gonna wear the word out  
And every time you see a poor fool fall in it  
That's all he talks about  
I never understood why the subject of love  
Was the biggest thing around  
Ah, but now that I've got it, I get it now  
Love is cool, love is cool, baby  
And oh, yeah, what's a poor boy  
What's a poor boy to do, yeah
