

One Heart (Radio Edit) [feat. P. Moody]

Italobrothers & Floorfilla

Yeah, It's time to go crazy,
you know we gonna do it like Lindsey
Britney with a little bit of Charlie
then we might go wild like Miley
pop bottles then pop Molly
'till the room spin around Kylie
Can you hi-hi-hear my Wiley
don't worry be happy smiley We came to party, party, party
I came, I came to party, party, party
she came, she came to party
she twerk it like she Miley
pop bottles and pop Molly
no we ain't gone be sorry, sorry
Cause we are one soul and one heart
we feel it from the start right now
we gotta live our life Cause we are one soul and one heart
we feel it from the start right now
don't you know that everything will turn out right,
tonight
all we need is just a little time tonight
...We we we we came to party, party, party
I came I came to party, party, party
She came She came to party, party, party
I came I came to party, party, party Cause we are one soul and one heart
We feel it from the start right now
We gonna live our life
Cause we are one soul and one heart
We feel it from the start right now
Don't you know that everything will turn Out right,
Tonight
All we need is just a little time tonight
