Shine On Forever (Photo Frame)

Same Difference

I cant kick this is feeling, I'm out of control
I'm loosing my mind and I, never felt so lowDo you remember when we had it all
Do you see yourself inside, the image on your wall[Chorus:]
I've gotta break out, what do you wanna see
I wanna go back, just set your mind free
The vision in my head, it takes me back where it used to beShine on forever, the picture is so clear
I've had the greatest moment, and the flashlight captures emotion
Shine on forever, when the colour fades to grey
I've had the sweetest memories, in my photo frameI'm crashing and burning, someone throw me a line
What I had before is what I, looking to findIf your loosing your rhythm, put yourself in rewind
Go back to a place where you, are on a natural high[Chorus:]
I've gotta break out, what do you wanna see
I wanna go back, just set your mind free
The vision in my head, it takes me back where it used to beShine on forever, the picture is so clear
I've had the greatest moment, and the flashlight captures emotion
Shine on forever, when the colour fades to grey
I've had the sweetest memories
In my photo frame, in my photo frameShine on forever, the picture is so clear
I've had the greatest moment, and the flashlight captures emotion
Shine on forever, when the colour fades to grey
I've had the sweetest memories
In my photo frame, in my photo frame
