These Times

The Normals

Its these times that I could kiss you
Its these times when youre asleep
Its these times you feel so dirty
Its these times you feel so cheapIts these times when youre the loser
The times youre gabbing on the phone
Its these times youre singing love songs
Its these times youre all aloneIts these times when youre the victim
Its these times when youre the saint
Its these times when youre the bad guy
Whos inflicting all the painIts these times you sail the ocean
The times you wash up on the shore
Its these times you feed the hungry
Its these times you rob the poorIts these times you burn the house down
Its these times youre getting burned
Its these times you do the right thing
Its these times you never learnIts these times that you deny me
And ignore everything Ive done
Its these times you crucify me
Its these times youre still my sonIts these times I love you
Its these times I love you
Its these times I love you
Its these times I love you
