Understand

Nickasaur!

I understand
that you don't understand
everything I touch
seems to get out of hand
if you want space
I guess i'll fly to the moon
then fall back to California
25 after noonI'm kind of amused
that your kind of confused
who was being accused
of being excused
I'm sorry if apologies
don't mean anything to youI understand
that you don't understand
what I'm feeling inside
isn't visible
I'll try and I'll try
and I'll try again
but no matter what I do
I wont be visible
to you, for you
i'll pack my bags and
I'll never look back
to you, for you
I'll put the pedal to the medal
down highway 405I understand that
you don't understand
everything I touch
seems to get out of hand
if you want space
I guess I'll fly to the moon
then fall back to California
25 after noonI'm kind of amused
that your kind of confused
who was being accused
of being excused
I'm sorry if apologies
don't mean anything to youeverything I touch
seems to get out of handeverything I imagined

didn't go as plannedI wanted some velvet
but got some cottonthese cold winter nights
should be forgottenbut you, only you
could hold me backbut you, only you
could manage to keep your head uponly you
but you
for you
to youI understand
that you don't understand
everything I touch
seems to get out of hand
if you want space
I guess i'll fly to the moon
then fall back to California
25 after noonI'm kind of amused
that your kind of confused
who was being accused
of being excused
I'm sorry if apologies
don't mean anything to youI understand
that you don't understand
everything I touch
seems to get out of hand
if you want space
I guess i'll fly to the moon
then fall back to California
25 after noonI'm kind of amused
that your kind of confused
who was being accused
of being excused
I'm sorry if apologies
don't mean anything to you...
