

Hang On

Fu Manchu

Well, I have seen your face
I heard 'em call my name
I know it's hard to believe
Just wait until you see Well, as they turn right back
I know what you're talking about
Identical marks were made
We follow them all the way I hang on
I hang on
I hang on
We've been moving for so long
I hang on
I hang on
We've been moving for so long
I hang on So after we refuel
Chase just like it do
So many times we pass
Destination here at last I hang on
I hang on
I hang on
We've been moving for so long
I hang on
I hang on
We've been moving for so long
I hang on Back and forth again
Same old sights from when
Still hot on our trail
Try to outrun but fail I hang on
I hang on
I hang on
We've been moving for so long
I hang on
I hang on
We've been moving for so long
I hang on I hang on
We've been moving for so long
I hang on
I hang on
We've been moving for so long
I hang on
