

# Mouth to Mouth

Matt Cardle

I can't feel  
I can't breath  
Condition critical  
I can't feel my heart beneath  
And my blood it runs so cold No sign of life I know what's happening to me  
I don't need a doctor  
You can give me what I need  
In my heart and in my soul Before I flatline (Save me) I'm going down  
It's an emergency  
I need you now  
Won't you rescue me? Without your kiss  
No, I'm not gonna make it  
Won't you help me out?  
I need a little bit of  
Mouth to mouth Won't you help me out?  
I need a little  
Mouth to mouth I am man not machine  
I am physical  
Won't you put your lips on me?  
Won't you pull my body close? And bring me to life! (Save me) I'm going down  
It's an emergency  
I need you now  
Won't you rescue me? Without your kiss  
No, I'm not gonna make it  
Won't you help me out?  
I need a little bit of  
Mouth to mouth Won't you help me out?  
I need a little  
Mouth to mouth (SOS)  
(Save me) Only you can save me! Won't you help me out?  
Won't you help me out? I'm going down  
It's an emergency  
I need you now  
Won't you rescue me? Without your kiss  
No, I'm not gonna make it  
Won't you help me out?  
I need a little bit of  
Mouth to mouth I'm going down  
It's an emergency

I need you now  
Won't you rescue me? Without your kiss  
No, I'm not gonna make it  
Won't you help me out?  
I need a little bit of  
Mouth to mouth Won't you help me out?  
I need a little  
Mouth to mouth
