

Mutant In the Gene Pool

The Dissidents

There's a mutant in your gene pool
Come and fetch him out now.

There's a mutant in your gene pool.
What ya gonna do fool?

Come and get the chemicals
to make him die!
He's oblique, he's a freak
he'll never do.

There's a mutant in your gene pool
come and fetch him out now.

There's a mutant in your gene pool.
What ya gonna do fool?

Kill him! I won't tell!
He could have been President,
He could have been President.

There's a mutant in your gene pool
Come and fetch him out now.

There's a mutant in your gene pool.
What ya gonna do fool?

What ya gonna do fool?
What ya gonna do fool?
What ya gonna do fool?
What ya gonna do fool?
