

# Head Up

## Arno Cost

Keep your head up  
The colors are beautiful  
When they say give up  
    Turn up your radio  
All the sentimental memories you own  
    When they say grow up  
    It's just like a funeral  
    Keep your head up  
    The colors are beautiful  
    Keep your head up  
    It's all right in front of you  
    When they say wake up  
    You're braking ridicule  
When all the sentimental memories you own  
Keep you trapped inside your room there all alone  
    And it feels like  
    It feels like you're lost  
    And it feels like  
    It feels like you're lost

Is there some way you can be out on your own?  
    Trust yourself  
    Don't waste another day at all  
        On your own  
        Keep your head up  
        The colors are beautiful  
        And it feels like  
        It feels like you're lost  
        And it feels like  
        It feels like you're lost  
Is there some way you can be out on your own?  
    Trust yourself  
    Don't waste another day at all  
        Watch this fade away  
        Everything fades away  
        Keep your head up  
        The colors are beautiful
