Love Knows How To Fight

M. Craft

Love knows how to fight
Love knows how to fight
Like darkness wrapped in light
Darkness wrapped in lightAnd the sky is a roof made of tin
With a million holes for the light to get in
Beyond there's an endless sea
Of lucidity and infinity of lightAnd tonight for the first time in my life
I'm gonna believe
There something is out there for you
And there's somewhere I'm going to'Cause all of the satellites which circle way up high
Won't save me now
And all of the meteorites we shoot across the sky
Won't save me nowAll of the galaxies that turn before my eye
Won't get me out
Out of this mess I'm in right now
No, nothing can save me nowSo if you wanna fuck up with a beer bottle in your hand
Then so do I
And if you wanna cut up the blueprints and the plans
Then so do IYou wanna get messed up and make a final stand?
Well, so do I
'Cause I look around me and i see
Nothing can save me nowNo, nothing can save me now
Oh, save me nowYeah, love knows how to fight
Yeah, love knows how to fight
Yeah, love knows how to fight
And fight it will right up until the endLove knows how to fight
Like darkness wrapped in light
Darkness wrapped in light
Love knows how to fight
Love knows how to fight
