

Write for Your Life

Whatever It Takes

[Verse]

taken for all its worth
a couple chords and a few words
sing our song together
sing at the top of our lungshaving met and having me change
was still the best thing,
through all these days[Chorus]

cause, you live...you learn
and you'll make mistakes
and the writing

is only a cheap escape
(from pain)[Verse 2]

well I know ill never make things right
and I'm fine with this

as long as you sleep well at night
so sleep well at night

cause what's been said I surely meant
and I'm happy for you

if you're happy without me
alright[Chorus][Bridge]

it took losing you
to find me
