

# DOZING GREEN

## DIR EN GREY

Mesmerized by those eyes with bugs crawling on them, my breathing stops  
My heart calms itself  
The refreshing sun mixes in with sound of the rainMy slashed heart dances, and I question in vain  
The white voice, the leaking of the breath in the sunThe obscene exposure of the wound  
Disappears into nothing, the wind of dogma  
Your melting heartThe dark morning, echoing goodbyeMy slashed heart dances, and I question in vain  
I just want to be alone right nowA single season of spring, even the tearful neck and you crawling the earthLove  
meAbandon hope
