

# Swingin' Machine

## Mose Allison

Are you tired?  
Are you uninspired?  
If you are bored  
You just can't afford  
To miss out on the scene

When I unveil my little swinging machine I worked years

Through sweat and tears

I made tests

Trying to find the best

Well, you will know just what I mean

When I turn on my little swinging machine Sometimes it gets a little hard to start

Sometimes I think its going to come apart

But when it's working just like a charm

It keeps me from going back to the farm So look neat

Don't you drag your feet

Just turn loose

Have a drink of juice

You'll know just what I mean

When I turn on my little swinging machine Instrumental interlude When my machine ain't working right

I walk the floor. can't sleep at night.

But when it really starts to percolate

I feel like I'm the master of my fate Take a tip

Don't be over hip

Just reach out

See what it's all about

You know it's much more felt than seen

I'm talking about my little swinging machine
