So Heartbroken

Sarah Geronimo

Sifting through the memories
Of the times you were with me
Now they seem so very long ago
All the good and bad
All the happy and sad
Made me who I amNever took for granted that you'd be with me forever
I was always hoping
That somehow you'd stay
Written in the stars in the heavens above
I would send my prayers butChorusWhen you walked away
Something deep inside of me sees
I'm HeartbrokenEveryday's a mystery
Wondering if love will find me
Will I ever open my heart again
Will the pain subside
Disappear in the night
Bringing hope in the time 'causeChorus 2x
