Are You with Me

Trapt

We'll get out alive I promise you
The toughest of times we will walk right through
Open your eyes and see there's nothing we can't do
I'm right by your side and there is no way we can loseI got your back I'm with you every step you take
Are you with me are you with me
Take your chance I'm with you every move you make
Are you with me are you with meInside of the lines we could not stay
The stars are aligned today could be our day
Your hands are untied and you are free to go your own way
Or you could shine your light on me and share the same fate
I got your back I'm with you every step you take
Are you with me are you with me
Take your chance I'm with you every move you make
Are you with me are you with meWhen I get too close to the edge
Will you be there to pull me back in
No matter how hard that it gets
I'm here til the end
Are youI want it all
But most of all I want you
I got your back I'm with you every step you take
Are you with me are you with me
Take your chance I'm with you every move you make
Are you with me are you with me
