

Come Back Home

Soul Nidus

I don't like the way this feels
There's no glory in building walls
We can dance around denial darling
Until the curtain falls You squeeze my heavy heart
With every chance that you get
Was hanging on for life, a choice?
Or were we just walking away? It is a long way home
And the leaves are turning to gold

Come back home

Come back home

There's a hole in the sky
And there wont be a pot of gold
Till you come back home

Come back home

Come back home

I said: "hold on still"

You said: "life aint a photograph.

People change

Oh so will we"

You might have to go in deep

To find the land beneath the sea

But there's a part of me in you oh yeah and there's a part of you in me It is a long way home

And the leaves are turning to gold

Come back home

Come back home

There's a hole in the sky
And there wont be a pot of gold
Till you come back home

Come back home

Come back home

[Bridge]

There is nothing here for me to hold on to

There is nothing here but these pictures of me and you

There is no one here, but your shadow still hangs on the walls Oh baby come back home Come back home
