

# This Kind of Love

**Roy Orbison**

Our Love, our love, won't die, can't die  
This kind of love was meant for you and I  
This kind of love was meant for you and I Your love, my love young love, true love  
This kind of love was meant for you and I  
This kind of love was meant for you and I One dream through life, one day my wife  
This kind of love was meant for you and I  
This kind of love was meant for you and I One dream through life, one day my wife  
This kind of love was meant for you and I  
This kind of love was meant for you and I  
This kind of love was meant for you and I
