

On My Honor

Naomi Marie

You led me to the ocean
Spread you arms open
And asked me to define
What the distance of the line was
On the horizon of the sky

And you said
As far as East to West can tell
That's how far your faults have fallen
From my sight

And you said
As long as height extends to depth
That's the length of time I'll spend
By your side

So on my honor
From this day onward
You'll be mine
Oh you make me alive

And you met me in the mountains of Colorado
As I said where you go
That I would follow
And somehow you found me
Beyond the smoke rising
Even after the fire had gone out

You taught me love's devotion
Is so much more than just desire
Cuz you treat me like a promise
Even though honestly I've been a liar

So on my honor
From this day onward
You'll be mine
You make me alive

Came along to the three three one clock
Drinking a souma

And standing to my right
I hear you whisper through the music
A holy new song that was not the only one
Who wants the Holy Spirit
And longs to feel him in their heart
Oh, you were with me in the dark
Yeah

So on my honor
From this day onward
You'll be mine
Oh on my honor
From this day onward
You'll be mine
Oh you make me alive
Oh you make me alive
