

# Reasons To Live (with Black Prairie)

[Rhett Miller](#)

Broken clock  
Right twice a day  
That's the story of my life  
You and I could run away  
But where would we go I know this town is a drag  
Alright, Alright  
But where would we go  
And it is what it is  
I have found reasons to live  
Sleepin' in  
Playin' guitar in the dead of the night  
You and I foolin' around  
Where can we go  
Travelin'  
Takin' the sunshine  
Alright, alright But once again, where would we go  
And it is what it is  
I have found reasons to live  
Thank God, I didn't die when I wanted to  
Thank God I didn't die I wouldn't have met you Break it down  
Tell me why life looks so bad to you back then  
Meaninglessness  
The meaning is this  
You and I with love in our hearts  
Alright, Alright  
There is no telling where we can go  
Thank God, I didn't die when I wanted to  
Thank God I didn't die I wouldn't have met you I have found reasons to live  
I have found reasons to live  
I have found reasons to live
