Turn Down Elliot

Poison the Well

With every part of mine
Fall away with every bit of you
I miss me
Give me some place to find
I'll meet cold everydayThink of all
I need you around
But for now anywaysHands held tight 'round me leave me
Hands held tight 'round meWith every part of mine
Fall away with every bit of you
I miss me
Give me some place to find
I'll meet cold everydayThink of all
I need you around
But for now anywaysHands held tight 'round, 'round me leave me
Hands held tight 'roundI'll hang neck tight
From anything for you
Skies, most wanted goodbyes
You missed my face againSkies, most wanted goodbyes
You missed my face again
