

# Turn Down Elliot

## Poison the Well

With every part of mine  
Fall away with every bit of you  
I miss me  
Give me some place to find  
I'll meet cold everyday Think of all  
I need you around  
But for now anyways Hands held tight 'round me leave me  
Hands held tight 'round me With every part of mine  
Fall away with every bit of you  
I miss me  
Give me some place to find  
I'll meet cold everyday Think of all  
I need you around  
But for now anyways Hands held tight 'round, 'round me leave me  
Hands held tight 'round I'll hang neck tight  
From anything for you  
Skies, most wanted goodbyes  
You missed my face again Skies, most wanted goodbyes  
You missed my face again
