

Providence

Tremonti

Take what you find and hold it inside
Pretend it would never be free
Learn from your past
Resist to the last
Delay when providence comes Tear down the walls re-build from the wars we wage
Find what is mine and crawl to the shadows, our cage Beliefs that we share, I know you're out there
You hide from the eyes of this world
Shield what you love
And hope it's enough
And pray that your providence comes Tear down the walls re-build from the wars we wage
Find what is mine and crawl to the shadows, our cage
We planned our escape
We run from the shame again
We learn to evolve
Seek change, change it all
Someway Take the life of
Always shameful
Take the life of
Always shameful Take what you find
And hold it inside
Plan your escape
The wars that we wage Tear down the walls re-build from the wars we wage
Find what is mine and crawl to the shadows, our cage
We planned our escape
We run from the shame again
We learn to evolve
Seek change, change it all
Someway
Change it all someday
Change it all someday
