The Wish

Trouble

Living in a world of delour
Hate a part of life
If that's all we live for
Then I would rather dieI'm going mad, can't You see my pain?
I pray to You God
Won't You please help me fulfill my death wish?
It's my only chance for escapeLosing touch with reality what is left for me
Suicide, is death my only way
Or is it life, life with You Lord
I am trying to find my way through fields of hopeThe only flame that burns inside is my mortal death
My dream is love, love for everyone
Show me the way, lord show me the way to be free
My mind is lost, had no hopeTo live all alone with no one to care
So much pain I can't go on
You had the faith where others had noneWhen I say that I need someone
All I need is You Lord, only You
You showed me the way to live
You saved me from my wish of deathI'd give my life to my Lord
Reaching out You heard my cry for help
Take my troubles and take my soul
I know You love me and that's all I needWhen I say that I need someone
All I need is You Lord, only You
You showed me the way to live
You saved me from my wish of deathMy mind is free, I'm saved at last
All the pain has been drawn from me
Never thought how good life could feel
Your love has helped me make it throughWhen I say that I need someone
All I need is You Lord, only You
You showed me the way to live
You saved me from my wish of death
