

# Come Clean

[Greg Laswell](#)

Advisory - the following lyrics contain explicit language:

All in a day, all in a day, I am without you  
Just yesterday I was on top of my game with you  
Then I should say, when you were away I think I knew  
But I refused, I refused to see Why did you never come clean with me?  
Why did you never come clean with me? In the moment you've erased  
My ability to hate  
You were at it again Welcome to my new place  
Take advantage of my grace  
We're at it again, my love This is not so innocent  
This is not what I had planned  
I think I should be going Why did you never come clean with me?  
Why did you never come clean? So explain to me yesterday  
What of all those things you say?  
Damn, we're at it again Welcome to my new place  
Take advantage of your space  
We're at it again This is not so innocent  
This is not what I had planned Why did you never come clean with me?  
Why did you never come clean with me?
