Information Society

Look at the world
It's a complicated place
And it's hard to keep the pace
You've got to wear a smiling face But what we've got
Is a blue light special on truth
It's the hottest thing with the youth
You've got nerves we need to soothe If you've got to believe in something
Believe in us we make it easy
Peace and love incorporated Shop around
See if you don't agree
We think it fits you to a T
And the best part is it's free, I believe We got the market cornered this time
We can make you feel fine
It could impact your bottom line If you got to believe in something
Believe in us 'cause we'll make it easy
If you've got to belong to something
Belong to us we'll make you PC
Peace and love incorporated Peace and love
It's the newest 'cause by far
And we've got all the biggest stars
Get your politics up to par If you got to believe in something
Believe in us 'cause we'll make it easy
If you've got to belong to something
Belong to us and we'll make you PC If you got to have faith in something
Have faith in us it can be so easy
Peace and love incorporated
Welcome to peace and love incorporated
