

Blackout

Breathe Carolina

Cut up and I can't feel my hands,
No need to chase.
Can you relate?
Can you keep up the pace like you're dying for this? And when you say "I'm not okay"
I left my phone in the cab
But you can't get me.[Chorus]
I'm only getting started
I won't blackout
This time I've got nothing to waste
Let's go a little harder
I'm on fire
I won't blackout
I'm on my way I'm only getting started And I can't see your face
Cigarette the wrong way
Inhale to the top of my lungs
I've been dying for this And when you say "I'm not okay"
I left my phone in the cab
Now you can't get me [Chorus: x2]
I'm only getting started
I won't blackout
This time I've got nothing to waste
Let's go a little harder
I'm on fire
I won't blackout
I'm on my way I'm only getting started [Repeat: x2]
This won't stop till I say so
This won't stop till I say so
This won't stop till I say so
Going and going and going and going and go [Chorus: x2] I'm only getting started This won't stop till I say so
This won't stop till I say so
This won't stop till I say so
Going and going and going and going and go I'm only getting started This won't stop till I say so
This won't stop till I say so
This won't stop till I say so
Going and going and going and going and go I'm only getting started
