I Know You Better Than That

Leslie Mendelson

I'm a little crazy on you
I can't help myself
Tell me what am I supposed to do?You're a little hard on me
I guess you don't want me to see
How honesty gets the best of you babyYou say you don't mind one way or the other
Whether we're apart or we're together
You think that you're so cool with your whatever

You put on quite an act

But babe I know you better than that You look at me and then you look away

As if there's a price to pay

For giving me a little timeStill you follow me around

As if I'm the only face in the crowd

I'm your every sight, I'm your every soundYou say you don't mind one way or the other Whether we're apart or we're together

You think that you're so cool with your whatever

You put on quite an act

But babe I know you better than thatCome on baby give it up, give it up
Come on baby give it up, give it upYou say you don't mind one way or the other
Whether we're apart or we're together
You think that you're so cool with your whatever
You put on quite an act
But babe I know you better than that
