Come to Me

Ginger

When my world was young
I used to be someone

Come to me
Bring your need

Now my days are black
A dark and frozen land

Come to me
Bring your need
Come to me
Bring your need

I need to feel your heart
A fading memory
I need to touch your skin
So bring it back to me
Back to me
So bring it back to me

Gone so far from here
I look to the sky but you're not there

I need to feel your heart
A fading memory
I need to touch your skin
So bring it back to me
Back to me

Come to me (so bring it back to me)
Bring your need (so bring it back to me)
Come to me (so bring it back to me)
Bring your need (bring it back to me)
Come to me (and bring it back to me)
Bring your need (and bring it back to me)
Come to me (and bring it back to me)
