Beautiful To Me

Kerrie Roberts

It's okay if you can't go
And changed what happened
It was just a bad day
And you know everybody has them

I get it when you say
You feel like everyone's passed you over
But it's not too late
People wake up off your shoulders

Oh, I'm coming to take you away
To the place where the pain won't find you
I'm coming to take you away
So leave the weight of the world behind you

Oh, and you know nothing's too far
Nothing's too hard, I'll always be there
I'm coming to take you away

Don't cry
Because you know you're not alone
Now, let me dry your eyes
Now it's time that you finally find out

There will always be a, a new day
At the end of every hard one
Now I'm on my way
So I can be there, help you start one
I'm bringing a new sun

I'm coming to take you away
To the place where the pain won't find you
I'm coming to take you away
So leave the weight of the world behind you

Oh, and you know nothing's too far
Nothing's too hard, I'll always be there
I'm coming to take you away
To take you away

I'm coming to get you
So leave your bags at the home that held you down
You can't pack for the place we're going now
It doesn't matter what's going on
I'm the one to get you out

I'm going to take you where the sun lights up your face
Where you can't remember yesterday
'Til your heart has been replaced
I'm coming to take you away

I'm coming to take you away
So leave the weight of the world behind you

And I know nothing's too far
Nothing's too hard
I'll always be there
I'm coming to take you away
Take you away
