

# Slacker

## Son Of Dork

My friend's a computer hacker  
But in school everybody said he was a slacker  
He writes science fiction novels  
He builds whole towns and villages from cola bottles  
He does equations just for fun  
Eats low carb ice cream with his mum  
Sews Cub Scout badges on his sweater  
He's just a feeling you ignore, a dumb computer hacker  
Trashcan on the floor, a pitiful disaster  
Cried to sleep at night when he never got it right  
'Cos he never realized, it doesn't even matter  
Later on in life, he's drowning in his laughter  
Three kids and a wife, he's happy ever after  
Stoked to be alive with his dream job up at NASA  
Loving everyday, well, I guess it really pays to be a slacker, yeah  
She stays up all night playing Tetris  
Asteroids, Pacman, written on his games to get list  
Wasted nights spent up in his bedroom  
Tough times, long nights, must have been a lot to get through  
He's getting sharp pains in his wrist  
In his world girlfriend's don't exist  
Can't even get an add on MySpace

He's just a feeling you ignore, a dumb computer hacker  
Trashcan on the floor, a pitiful disaster  
Cried to sleep at night when he never got it right  
'Cos he never realized, it doesn't even matter  
Later on in life, he's drowning in his laughter  
Three kids and a wife, he's happy ever after  
Stoked to be alive with his dream job up at NASA  
Loving everyday, well, I guess it really pays to be a slacker, yeah  
He's the one all alone in despair  
He's the one who thinks life isn't fair  
He's the one sitting right over there  
He's the lonely guy on the side looking kinda shy  
You could see him ride, passing by on a pedal bike  
He's the funny type kinda like Napoleon Dynamite  
He's just a feeling you ignore, a dumb computer hacker  
Trashcan on the floor, a pitiful disaster

Cried to sleep at night when he never got it right  
'Cos he never realized, it doesn't even matter  
Later on in life, he's drowning in his laughter  
Three kids and a wife, he's happy ever after  
Stoked to be alive with his dream job up at NASA  
Loving everyday, well, I guess it really pays to be a slacker, yeah  
It pays to be a slacker, yeah
