

It Donâ€™t Go (feat. Ces Cru)

Bernz

[Intro: Bernz]

No no!

No no! [Verse 1: Bernz]

I'm just in a different place;

See you on the other side!

Everyday a different state

This my everyday state-of-mind

Me and you are not the same

Wanna take a shot? Get in line

Never been the one to play it safe

Not at all motherfucker, never been the type, noooo!

I done heard all the shit that you said

It didn't go over my head cause the wordplay lackin'

In the end, when the signals sent

We'll know the real one, better cry a reaction

Who gon' pull up with their Giga's blasting and their windows down, seat-belt unfastened?

Homie don't get mad, I'm just askin':

Tell me what the hell happened! [Hook: Bernz]

Oh no! (x2)

That shit don't go

It don't go

Sorry to be the one to say you not, though

You said it's bangin', but that shit do not go

Like oh no! [Verse 2: Bernz]

I don't like the way they always all up in my kitchen

Trying to get the recipe for all them things I'm whippin'

It's too good to change your mood and make you lose your bitches

So when I be cheffin', all you left with is the fucking dishes

I'm like oh no, them boys, they lost all their souls

They all believe what they've been told

They eat that feed, but they ain't grow

They on their knees, cause they need more

They all pee weeds trying to get swole

I'm on my feet watching them go

I just don't lean towards them and know: [Hook: Bernz & (Ubiquitous)]

Oh no! (x2)

That shit don't go

It don't go

Sorry to be the one to say you not, though (Uh!)

You said it's bangin', but that shit do not go (No!)
Like oh no! [Verse 3: Ubiquitous]
When the beat go droppin'
And I'm Rico Suave-ing
I kill 'em while the people watchin'
I mean, even the police won't stop him
We got it going on, you gonna get it
Whatever you did done, you never run livid
I run [?] you better come with it
I never run, dippin' the tip of my tongue in it
The sun lit it
Said
