

Empty State (feat. Mic Burns)

Armin van Buuren

I look into your eyes and fall away
You make me feel I don't exist
Time can make a better place for us
But you make me feel lonely when I'm not I can not help the way I feel for you
As I fall into your arms
I can be someone who needs you
How i tried... How i tried... I can not help the way I feel for you
As I fall into your arms
I can be someone who needs you
How i tried... How i tried... I can not help the way I feel for you
As I fall into your arms
I can be someone who needs you
How i tried... How i tried...
