

Chasing Dragons

[Gemma Hayes](#)

The morning has no sympathy
It just screams across the room
Making light of everything
Taking you
And now I've got a creature on my mind
Go chase your dragon and I'll chase mine They say time is just one long straight line
And they can deaden a girl while she's still alive
Well, man, we've had one hell of a ride
Go chase your dragon and I'll chase mine I know I know I know I know
The sweeter it gets the deeper you go
I don't think we're coming back this time
Man, go chase your dragon and I'll chase mine Now there's nothing left to say that's true
So forget about me and I'll forget about you
Well I'm going to find a way to catch that sun
And then I'll leave you behind my beautiful one
