

Choke (feat. Imnotmelrose)

SpaceMan Zack & Elijah Heaps

Drunk and in love
With you girl
Finally playing the part
But you weren't fucking with me to start
It took you finally breaking my heart
To open up my eyes, just to stumble in the dark
And I know all the things you wanna be
If you don't wanna wait for me, then leave
When I'm gone spending nights out on the road
I think of you and then I slowly start to choke

I'm drunk and in love , you think I need to sober up
You still fucking me up, seeing double like my cups
Now you fuckin' around and you ruined all my trust

But, girl, I was down
All these women wanna fuck me
But no, no, no, no, girl you know me
Yeah I wanted love, yeah, the whole thing
And you wanted drugs and the money
Got me living on my don't trust a hoe shit
Don't fuck with nobody now
Let everybody down
Tears keep on running
You turned me to what I am
And I think it's funny now I cannot stomach
Thoughts of you when they creep into my head

I'm down on my darkest days
Invite you over but you can't stay
We know this isn't how love should be
We fuck and it's not the same
This [?] is not cocaine
You take I bump, I take a bump
Put me on your tongue
You could get up and leave
You've had enough of me
But stay close to me
While I'm suffering

Left wrist cut, right wrist cut
Can't break up

Drunk and in love
With you girl
Finally playing the part
But you weren't fucking with me to start
It took you finally breaking my heart
To open up my eyes, just to stumble in the dark
And I know all the things you wanna be
If you don't wanna wait for me, then leave
When I'm gone spending nights out on the road
I think of you and then I slowly start to choke
