

# What to Do

## Gob

Something's on my mind  
Something's change sometimes  
I sit around out here and think Do you even know what's going on?  
'Cause I sure don't have a clue with you anymore Got a wound in time  
But I know I'm fine  
I sit around out here and think Do you even know what's going on?  
'Cause I can't stand to hang out  
Or even be with you anymore, with you anymore
