

Lady godivas room

Simply Red

Before we go on the honeymoon is over...Just because I've never known your face

Don't look at me in the wrong way

To try and pick you out from all this space

The coldest room in the whole damn placeLady Godiva's room

The only place she ever played in tune

Lady Godiva's room

The only place she ever played her bells in

Ah this is madness

This is insane

GloomBefore we go on the honeymoon is overWhen I asked I was beside myself

Thought that marriage would turn out well

The love we have is still inside us

The dreams we had have left inside and died

In this holly and Ivy age

The day we kissed on the Mistletoe trainLady Godiva's room

The only place she ever played in tune

Lady Godiva's room

The only place she ever played her bells in

Ah this is madness

This is insane

GloomBefore we go on the honeymoon is over

Before we go on the honeymoon is over

Lady Godiva the honeymoon is over
