See Ya

Bell, Book & Candle

Come into my heart
Can you feel my desperation deep inside?
Hey, hey, hey
Hey, hey, heyCome into my heart
Can you feel my desperation deep inside?
Come into my soul
And can you see me here I'm far away from you?See ya be sensible and let me go
See ya you'll stay my soulmate although
You should say goodbye
For now say goodbyeYou know these rainy days of our life
You can make it if you try
You know I will be right by your side
One day we will meet in another lifeCome into my heart
I'm searchin' you so desperately forever more
Come into my soul
So must I put up with this cruel infinity?See ya be sensible and let me go
See ya you'll stay my soulmate although
You should say goodbye
For now say goodbyeYou know these rainy days of our life
You can make it if you try
You know I will be right by your side
One day we will meet in another lifeYou know these rainy days of our life
You can make it if you try
You know I will be right by your side
One day we will meet in another life
