

# Safe

Miranda Lambert

Just like the fringe on my boots, you move with every step I take  
You walk in front of me, to make sure I don't fall and break  
My old heart cause with you I could never  
Just like the leather on my saddle, we get prettier with time  
Together in the weather, shiny on the other side  
Polished and changed, for the better  
With you I'm safe  
With you I'm safe  
I follow you just like a shadow, on the closer end  
If you get tired and bound, I'll find a way to free your hands  
I'll wash them clean of everything but me  
Sometimes you might get thirsty, so I'll catch the rain  
Just like the ice in your glass, I'll rattle when you need a drink

You'll never run dry of love, or anything  
I'll keep you safe  
I'll keep you safe  
I'll keep you safe  
I keep a locket on my neck that holds your face  
I'll spend forever makin' sure I can erase  
Every tear you ever thought about cryin'  
You make me feel like I'm the only girl in the whole wide world  
I wanna hold you like a handful of diamonds and pearls  
That I guard with my life or die tryin'  
I'll keep you safe  
I'll keep you safe  
I'll keep you safe  
I'll keep you safe
