Dream Child

Cris Williamson

I love to see you in the low light, love
And touch your secret weakness with my fire
Let's burn together all through the night
I'm just a dream child of desire
Yeah, I'm just a dream child of desire

There's a wildfire through the country
Oh, oh, my land is all on fire
You've got me burning with the sweet love heat
I'm just a dream child of desire
Yeah, I'm just a dream child of desire

And when you call my name,
oh, the flames rise higher and higher
And I am not the same,
Oh, the bird is rising out of the fire

Deep in that fire I heard love call,
And I shall not deny her
Come on, sweet fire, and lick me clean
I'm just a dream child of desire,
Yeah, I'm just a dream child of desire

And when you call my name,
oh, the flames rise higher and higher
And I am not the same,
Oh, the bird is rising out of the fire
I'm just a dream child of desire.

Deep in that fire I heard love call,
And I shall not deny her
Come on, sweet fire, and lick me clean
I'm just a dream child of desire,
Yeah, I'm just a dream child of desire

And when you call my name,
oh, the flames rise higher and higher
And I am not the same,
Oh, the bird is rising out of the fire
I'm just a dream child of desire.

Yeah, I'm just a dream child of desire,
oh, oh, yeah, I'm just a dream child of desire,
Yeah, I'm just a dream child of desire
Yeah, I'm just a dream child of desire.
