

Great Legs

Chixdiggitt

Great jeans, great legs, great body
But she had a bad attitude
All my friends thought she was snotty
And my mom thought she was rude
But I liked her anyway She put me in my place
She put me in my place
She put me in my place
She put me in my place
She put me in my place Great jeans, great legs, great body
But she had a bad attitude
All my friends thought she was snotty
And my mom thought she was rude
But I liked, liked, liked, liked, liked her anyway
