## Duran Duran

Time to boogie yea  
Danceophobia  
Time to boogie yeaGet on the floor, what you gonna do?  
I'm in the system, I'm trying to get to you  
We've both waited for so long  
Nothing can stop us, come on this is our songLook around (look around)  
And forget the crown (forget the crown)  
Take my hand (take my hand)  
Sing it loudI know what it is coming over you (coming over you)  
You don't dance, danceophobia (danceophobia)  
I know what it is coming over you  
You don't dance, dance enough  
You don't danceYou're in the car, we go and turn  
Turn up the volume; am I getting through to you?  
Open the window, see what you got  
I'm on the speakers, it's time to hit the...Look around (look around)  
And forget the crown (forget the crown)  
Take my hand (take my hand)  
Sing it loudI know what it is coming over you (coming over you)  
You don't dance, danceophobia (danceophobia)  
I know what it is coming over you  
You don't dance, dance enough  
You don't dance  
I know what it is coming over you (coming over you)  
You don't dance, danceophobia (danceophobia)  
I know what it is coming over you  
You don't dance, dance enough  
You don't dance[Lindsay Lohan:]  
Can you hear me?  
If you can hear me let me know  
I am your doctor  
You may be experiencing feelings of confusion  
Don't be afraid, I've seen these symptoms before  
10-20 new cases each week  
We call this condition, danceophobia  
I'm going to bring you in for observation  
I'll have to work on you tonight  
We have to trust each other  
And together, I think we can lead this thing off

When the music ends I know what it is coming over you (coming over you)

You don't dance, danceophobia (danceophobia)

I know what it is coming over you

You don't dance, dance enough

You don't dance

I know what it is coming over you (coming over you)

You don't dance, danceophobia (danceophobia)

I know what it is coming over you

You don't dance, dance enough

You don't dance
