Here Comes the Thunder

Tim Hicks

Yeah, the boys are back
We're going to hit this town
Been a long time coming
Been a long hard tout

Going to smoke some
Going to drink some
Going to find a little trouble
If not, we're going to make some

Rolling, rolling, rolling, rolling, rolling
We're going to throw it all down
We rolling, rolling, rolling, rolling, rolling
Yeah, you better watch out

Here comes, here comes the thunder
Here comes, here comes the thunder
Storm's coming, better run for cover
Here comes, here comes the thunder

Woah yeah!

Get your tall boys lined up
Whiskey on the rocks
Get the girls all wound up
Lemon drops shot

Going to play hard
Going to take me
Till the last dollar gone
Yeah, we're going to make it rain

Here comes, here comes the thunder
Here comes, here comes the thunder
The boys are coming back
Better run for cover
Here comes, here comes the thunder

Side by side is how we roll
Raise 'em high, look out low

Side by side is how we roll
Raise 'em high, yeah
Here comes, here comes

Here comes, here comes the thunder
Here comes, here comes the thunder

Rolling, rolling, rolling, rolling, rolling
We're going to throw it all down
Rolling, rolling, rolling, rolling, rolling
Better look out, better look out

Here comes, here comes the thunder
Here comes, here comes the thunder
The boys are coming back
Better run for cover
Here comes, here comes the thunder
Here comes, here comes the thunder

Storm's coming, better run for cover
Here comes, here comes the thunder

Side by side is how we roll
Raise 'em high, look out low
Side by side is how we roll
Raise 'em high, yeah
Here comes the thunder

Rolling, rolling, rolling, rolling, rolling
Here comes, here comes the thunder
We rolling, rolling, rolling, rolling, rolling
Here comes, here comes the thunder
