Eyes

Stellar Kart

My vision is cloudy, it's all gone gray
I'm searching for sunshine in pouring rain
All this world can offer, I leave behind
I've had enough of being blindOpen my eyes
(I wanna see what You see beyond these beautiful lies)
Open my eyes
(To find what last forever, look to the soul that's inside)
Open my eyesSo focus my sight to see right through
These walls that have kept me from seeing truth
Forgive me for all my unbelief
And give me faith on things unseeingOpen my eyes
(I wanna see what You see beyond these beautiful lies)
Open my eyes
(To find what last forever, look to the soul that's inside)
Open my eyesHeal me from my blindness
Take away this darkness
Show me the lightOpen my eyes
(I wanna see what You see beyond these beautiful lies)
Open my eyes
(To find what last forever, look to the soul that's inside)
Open my eyesOpen my eyes
