

My God Does

Diamond Rio

My God there I go again Keep messing up when I think I can run the world Once more out here at my wits end
Feel like I'm lost again Tossed again I could use a friend (CHORUS) When am I gonna live When am I gonna
learn When am I gonna finally figure it out Where I could turn To find sanity When everything goes crazy
Where am I gonna go When I need some help Where am I gonna ever find The power to forgive myself When I
don't have the love My God does I swear I've been here before Swearing I would never make The same mistake
again Nowhere to go but up from here I guess I had a prayer All along you where there (CHORUS) When I
don't Gives me the will when I just won't Gives me the power in the hour of my need (CHORUS)
