Private Line

El Debarge

Tilt up...oh!
VERSE 1:
If you need somebody there
Someone to hold you close
Someone to care
Got something here, waiting for you
And I would not believe
It's something you can lose
B-SECTION 1:
If it's loving that you need
You can get in touch with me
I'll never out of reach
CHORUS:
Giving you, giving you my private line
Call me anytime
Don't you know, don't you know you get right through
Oh...oh...oh...
Giving you, giving you my private line
To this heart of mine
Oh, you, you got my private line
Oh...oh...oh...oh...
Aw, baby, mmm
VERSE 2:
I came out to nobody else
Girl, what you got you got all to yourself

Or just a friendly voice
In the middle of the night

I'm excite your fantasy
Do anything you want me to
Love to connect with you
