Take It All Away

Ryan Cabrera

So much beauty in life
Shining on the outside
Empty on the inside
I get lost sometimes
Blinded by the flashing lights
Distractions always in my eyes
So I'm following the sound
The sound of my heart beating
You can take it all away, I don't need it
Underneath I'll still be the same
You can take it all away, I don't need it
It's not me, you can take it all, take it all away
I'll still be the same
Are you hiding still?
Don't you wanna love yourself?
Don't you know that someone will?
Time can turn it around
Leave it all and strip it down
That's the only way to find it out
Are you following the sound
The sound of your heart beating?
You can take it all away, I don't need it
Underneath I'll still be the same
You can take it all away, I don't need it
It's not me, take it all away
Coming in with nothing
I'm leaving with the same
It's all inside
Coming in with nothing
The only thing that stays
Is here inside
You can take it all away, I don't need it
'Cause underneath I'll still be the same
You can take it all away, I don't need it, no
You can take it all, take it all away
I'll still be the same
I'll still be the same
I'll still be the same
