# All the Way With You

## John Prine

Love gives
Love takes
It takes a lot of lucky breaks
Lucky strikes
Lucky stars
I don't know how I got this far
Who knows where it's coming from
Or where it's going to
Can I go all the way with you?You have your way
You have your doubts
The falling in
The falling out
A bridge is built
A bridge is burned
Till you reach the point of no return
Don't know where we're coming from
Or where we're going toCan I go all the way with you?
Heaven knows that this ain't nothing new
God knows how much I love you
Love comes
Love goes
Can I go all the way with you?
Can I go all the way with you?
