

Be Smart and Breathe

Beatsteaks

Whatever you need
An exit strategy
A holiday for free
from the people who see through you quietly
Pretending to believe Don't you feel any shame
on the top of your game
The money will be there
to keep you waiting somewhere
Do you know what I mean?
To get away like a thief
Be smart and breathe First you tune in
Then you drop out
And you draw back
While you pass out
Come on please
Be smart and breathe Depends on what you believe
So what the hell did we sign
when we were out of our minds
Now we know what it means
Repeat after me First you tune in
Then you drop out
And you draw back
While you pass out
Come on please
Be smart and breathe Will it be drastic
or maybe fantastic
The answer is no dear
We're keeping it slow here First you tune in
Then you drop out
And you draw back
While you pass out And you tune in
And you drop out
When you draw back
While you pass out
Come on please
Be smart and breathe
