

Money (Demo with Ralf Scheepers)

Gamma Ray

I don't need no money I will stick to my ideals
You better get some money you better get yourself a deal
I won't change my habits and throw it all away

No no you better keep it all together for another day
Money It only makes me sick and makes the people turn to
fools

It only gives you power and power makes the rules
Don't wanna be an asshole that sits on dollar bills

Ha ha ha I know you'll take it no matter how you feel
Money Nothin' you'll get for free illusion or reality

The mirror of your dreams is made of cash
It drives me wild and drives me crazy

Makes me fat and makes me lazy
Anythin' you want anythin' you need
Anythin' you want anythin' you need

If I had a little money I would feel okay
It is money that rules the world

It is money that lights the day
It is money that makes it work
It is money that makes you live
Hey Money money money money
(Give me money give me money)

Money money money money
(Give me money give me money)

Money money money money
(Everybody wants some.)

Money money money money
(Everybody needs some)

Money money money money
(I want more you want more)

Money money money money
(We want more they want more)

Money money money money
(I want more you want more)

Money money money money

(We want more they want more) Nothin' you'll get for free, illusion or reality

Anythin' you want anythin' you need
Anythin' you want anythin' you need

If I had a little money I would feel okay
It is money that rules the world

It is money that lights the day
It is money that makes it work
It is money that makes you live
Hey Money

Money
Money
Money
